You will play in the age group of the younger player on your team. Players can play up to a higher skill rating event but not down. Players may play down to a lower age group but not up. If you plan to play up in skill level or down in age group, please LET US KNOW WHEN YOU REGISTER. Skill levels and/or age groups will be combined if necessary based on the number of entries. If you don't have a partner we will attempt to find one, but we can't promise this can be done.

Your USAPA skill level rating will be used where applicable. Players without a USAPA designated rating must indicate their skill level based on the International Federation of Pickleball (IFP) SKILL RATING DESCRIPTIONS. The IFP skill rating descriptions can be found at: [http://ipickleball.org/ratings/IFP\\_ratings\\_descriptions.html](http://ipickleball.org/ratings/IFP_ratings_descriptions.html). Regardless of the designated skill rating, participation in the appropriate skill level division is subject to approval of the Tournament Director.
